Summary

I am a passionate Computer Science undergraduate with a strong focus on MERN stack development (MongoDB, Express.js, React.js, Node.js). I love building scalable, secure, and user-friendly applications that solve real-world problems.

Over the past months, I have:

- Creating full-stack projects featuring authentication (JWT), CRUD operations, API integration, and responsive UI design.
- Learning React hooks, Context API, and RESTful APIs, along with database design in MongoDB.
- Explored version control (Git & GitHub).

Core Skills:

React.js | Node.js | Express.js | MongoDB | REST APIs | Git/GitHub | Problem-Solving | DSA in Java

I am driven by curiosity and thrive in collaborative, fast-paced environments. Currently, I am looking for internships and opportunities where I can contribute to building impactful full-stack solutions while continuing to learn and grow as a developer.

Always open to connecting with fellow developers, mentors, and tech enthusiasts to exchange ideas and collaborate on innovative projects.
